Hon. Assistant Commissioner of Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action dated June 20, 2006, please amend the above identified application as follows.

Please charge any fee associated with this amendment to deposit account 19-2179.

In the Specification:

Please substitute the following Abstract for the existing Abstract in the application.

A system for scheduling a set of tasks to be performed by at least one individual to support healthcare delivery employs a method for providing a user interface for processing an event. The event represents a change in circumstances potentially affecting healthcare delivered to a patient. The method involves initiating generation of at least one display image in response to user command. The display image or images support the identification of an event and an associated parameter as well as the designation of a predetermined process associated with the identified event. The display image or images also support user indication of the parameter to be

provided to the predetermined process in response to occurrence of the event. The predetermined process comprises a set of tasks to be performed by at least one individual to support healthcare delivery. The display image or images also support designating an executable procedure to be initiated in response to occurrence of the identified event.

In the Claims:

Amend claims 1, 2, 18 and 21 as attached by deleting the material identified by a strikethrough marking and by adding the underscored material.
